

BIKE CLEAN

Bike Cleaner

Description

MOTOREX BIKE CLEAN is a rapid action cleaner which is rapidly biodegradable and solvent-free. Its special active ingredients quickly and thoroughly dissolve even stubborn, dried-on dirt and are particularly effective in removing oil and grease residues. The formulation contains active substances, which strengthen the cleaning effects and penetrate dirt, soften it and loosen it from the bike frame.

Advantages

- rapidly biodegradable
- neither corrosive nor toxic
- does not contain any solvents or other volatile organic matter (VOC free)
- very good materials compatibility
- only very small amounts are required
- can be diluted with water (max. 1:2)
- optimum adhesion
- carbon tested

Field of application

For cleaning dirty bikes and mopeds including their equipment, especially after cross-country rides or in bad weather conditions.

Application

Spray the bicycle with the biodegradable cleaner and – depending on how dirty it is – allow to act for three to five minutes (avoid exposure to direct sunlight). After BIKE CLEAN has had sufficient time to act, wash the bicycle with plenty of water using a hose with a fine spray (from a distance of at least 20 cm). Do not point the spray directly at the bearings and axles.

General information

It is advised not to use high-pressure washers. Re-lubricate chains and derailleurs immediately after they have been dried in order to prevent corrosion. Not apply in the sun!

Technical data

Properties	Unit	Test according to	Values
Colour		DIN ISO 2049	blue
Density at 20°C	g/ml	ASTM D 4052	1.048
pH value undiluted			9.3

Water hazard class: WGK 1

Disposal code: VeVA/EWC 070 601
