

CARBURETOR CLEAN "NEW FORMULA"

FLUID

Carburetor cleaner

Description

The MOTOREX carburetor cleaner is a concentrated cleaner developed to ensure trouble-free cleaning of residues and impurities from carburetors. Cleans air passages, inlet flaps, Venturi tubes, adjustment screw seats and carburetor housings. For all two- and four-stroke petrol engines. Highly intensive cleaning effect, requiring seals and membranes to always be removed beforehand. Ideally suited for use in overhauls of older vehicles or those which have been idle for a long time.

Advantages

- extreme cleaning power
- removes residue left by poor-quality fuel

Field of application

Can be used in all types of carburetor engines. Particularly suitable for use in restoring vintage and classic models. Also ideal for removing very stubborn dirt. Particularly suitable when putting vehicles that have been idle for a long time back into operation when their carburetors are blocked, dirty and no longer working.

Application

For normal use, apply pure carburetor cleaner or dilute it in petrol up to a ratio of around 1:4. Place the parts to be cleaned in a suitable container for two to four hours (or longer depending on the amount of dirt) and then wash them out with petrol. Remove all rubber seals and parts beforehand. The MOTOREX carburetor CLEAN SPRAY can be used for finishing.

Notes

Replace seals after use.

Technical data

Properties	Unit	Test according to	Values
Colour			yellow
Density at 20 °C	g/cm ³	ASTM D4052	0.803
Flash point CCA-FLPH	°C	ASTM D6450	<0

European waste code: 07 06 04 / Water hazard class: WGK2
