

EASY CUT PUMPSPRAY

OIL SPRAY FOR USE WHEN DRILLING AND CUTTING

Description

Oil spray for use when drilling and cutting all high-alloy steel grades as well as non-ferrous metals and aluminium. For drilling, thread-cutting, sawing, turning, milling, stamping. Optimum cooling and lubricating properties. Non-water miscible. Spray metering capability.

Advantages

- Increases machining speed
- Reduces frictional wear
- Extends the service life of tools
- Low evaporation
- High pressure absorption capability

Use

Apply spray, holding it at a short distance
Wait for a short time before spraying on further coats.
Does not use propellant.

Contents:

250 ml
