

PRISMA FE

SAE 75W

Low-viscosity gear oil for manual gearboxes API GL-4

Description

MOTOREX PRISMA FE 75W is a low-viscosity gear oil for manual gearboxes. It has been specially developed to minimise the resistance in the gearbox, thereby guaranteeing smoother running. The cutting-edge additive technology in the high-quality base oil combination helps to save fuel in modern vehicles.

Advantages

- Helps to save fuel and reduce CO₂
- Reliable protection against wear despite the low viscosity
- Good detergent action and corrosion protection
- Top functionality at very low to very high temperatures
- Stays foam-free even at extremely high loads
- Protects bearings against wear
- Good compatibility with seal material

Field of application

MOTOREX PRISMA FE 75W is a low-friction gear oil that can be used in manual and semi-automatic gearboxes. It can be used in both passenger and commercial vehicles. The manufacturer's instructions must be followed.
