

RACING BIO DIRT REMOVER

Rapidly biodegradable cleaner for air filters

Description

MOTOREX RACING BIO DIRT REMOVER is a specially developed powder cleaner for off-road motorcycles and quads (ATV) which are fitted with reusable foam air filters. Its active ingredients dissolve even the most stubborn dirt.

Advantages

- developed by MOTOREX Racing Lab in close collaboration with Twin Air
- in powder form
- rapidly biodegradable
- removes even the most stubborn dirt quickly and completely
- for reusable foam air filters
- fast and easy to use
- rinse under running water
- environment ally friendly

Field of application

Put three litres of tap water (as hot as possible) in the MOTOREX AIR FILTER CLEANING TUB. Add 100 ml of air filter cleaning powder to the water (One filter needs 100 ml of RACING BIO DIRT REMOVER). Fully immerse the dirty filter (wear protective or disposable gloves and be careful not to burn your hands). Let it soak for ten to fifteen minutes. Squeeze the filter several times (do not wring!). Repeat this procedure until all the dirt has disappeared. Wash the filter with clean, cold tap water until all the soap residue has been removed.

The filter can be oiled again with MOTOREX RACING BIO LIQUID POWER as soon as it is dry. It can be used again after about 2 hours.

Technical data

Properties	Unit	Test according to	Values
Appearance			White powder
pH value	1% in water	DIN 19251	10.5
Application concentration	%		Approx. 3%

Water hazard class: WGK 1
Disposal code: EWC 070 601
