

SPRAY WITH PTFE

DRY LUBRICANT

Description

A dry lubricant, suitable as an anti-seize and release agent, which does not leave behind any oily marks. Prevents sticking to moulds and stops mounted parts from becoming seized on machine tools.

Advantages

- lubricates
- adhesive
- anti-seize
- stable at different temperatures

Use

Shake well before use. Spray the relevant areas at a distance of 10 – 20 cm and allow it to dry.

Contents

200 ml
