

# WASH & PEARL

## CAR SHAMPOO

### Description

Concentrate, excellent cleaning and foaming behaviour, pearling effect. Biodegradable, high gloss. Application: Clean the car first with Pre cleaner or a water jet. Add shampoo to the water in a bucket (1 cap / litre) and wash the car thoroughly with lots of water. Rinse again with a water jet. Residual water spots should be removed with a lint free cloth or a polishing leather. Avoid rubbing.

### Physical and chemical properties:

appearance: liquid  
colour: dark blue  
odour: lemon  
solubility in water: miscible in all proportions  
density: 1.014 g/ml  
viscosity: <3 mm<sup>2</sup>/s (40°C)  
vapour pressure: <3 mbar (20 °C)  
pH: 3.3  
flash point: not applicable  
ignition temperature: not flammable
