

WET PROTECT

Chain lubricant for damp conditions

Description

MOTOREX WET PROTECT is a fully synthetic chain lubricator developed especially for damp or wet conditions. This rapidly biodegradable lubricant is highly dirt and water repellent and exceptionally adhesive. It ensures precise and smooth gear changes in difficult conditions.

Advantages

- rapidly biodegradable
- free from heavy metals
- extremely dirt and water repellent
- very good materials compatibility
- exceptional adhesion
- effective corrosion and oxidation protection
- excellent results in racing
- very good long-term effect
- not classified as dangerous goods

Field of application

MOTOREX WET PROTECT is recommended for lubricating chains and derailleurs in mainly damp or wet conditions.

Application

Apply MOTOREX WET PROTECT to dry, clean chains and derailleurs. Move the parts as you do this so that the lubricant is applied evenly. Dirty chains can be easily cleaned using MOTOREX EASY CLEAN.

Warning: Prevent contact with brakes to retain optimum braking performance.

Note: Also available as a spray.

Technical data

Properties	Unit	Test according to	Values
Colour		ISO 2049	yellow
Density at	20°C (g/ml)	ASTM D 4052	0.889
Viscosity at 40°C	mm ² /s	DIN 51562-1	27
Pourpoint	(°C)	ASTM D 5950	< -20
Flash point	(°C)	ISO 2592	80
VOC	%		20

Water hazard class: WGK 1
Disposal code: VeVA/EWC 130 899

The above information is subject to change without prior notice, although it is in accordance with current standards. Performance characteristics indicated are based on usual tolerances which occur during measuring and production using the latest technology. A safety data sheet is available for the product described.
