

# FLUID 804

## Anticorrosion agent (thin and oily protective film)

### Description

MOTOREX FLUID 804 is an excellent anticorrosion agent with an outstanding water-repellent effect. A very thin, resistant protective film is formed which is not tacky and which does not bind any dust. The protective film can easily be removed with a solvent cleanser (for instance, REX cleanser).

### Advantages

- provide outstanding corrosion protection
- very economical to use
- not drip
- a good water-repellent effect
- quickly and easily be removed
- attack not paints and machine coatings
- non-resinifying protective film
- easy to apply

### Area of application

MOTOREX FLUID 804 effectively protects small to medium-sized components against corrosion during manufacturing procedures as well as ready-to-ship parts while they are in intermediate storage.

MOTOREX FLUID 804 can be applied by means of spraying, immersion or with a brush.

### Notice

Contains VOC and hence need an incentive tax paid.

### Technical data

Properties	Unit	Test according to	Values
Colour		DIN ISO 2049	brown
Density at 20 °C	g/ml	ASTM D 4052	0.790
Viscosity at 40 °C	mm <sup>2</sup> /s	DIN 51562-1	< 3
Flash point	°C	DIN EN ISO 2592	50
Film thickness	µm		0.4 – 0.8
Spotting on steel and non-ferrous metals			none
Drying or evaporation time at 20 °C	min		30
Corrosion test on polished steel CK22 after 4 weeks of outdoor storage			none
Protection validity	indoor storage	shed storage	outdoor storage
Month	8	5	2 weeks
VOC	%		90

Water hazard class: WGK2  
 Disposal code: EWC 070604
